RE: Closure of Building F
Hydrocarbon Recyclers Inc. d/b/a USPCI
Wichita, Kansas
EPA I.D. Number: KSD007246846

Dear Mr. Morton:

The Kansas Department of Health and Environment (KDHE) has reviewed the analytical results submitted on April 30, 1992 for samples collected during closure of Building F. The concentrations of constituents found in the soil under the building and in the final decontamination rinsate are insignificant in comparison to the background samples. Based on these results, no further remedial action is required.

If you have any questions regarding this letter, please contact me at (913) 296-1612.

Sincerely,

A handwritten signature in cursive script, appearing to read "Siew P. Kour".

Siew P. Kour
